UI/UX Designer with 2+ years of experience as a Frontend Developer. Skilled in wireframing, prototyping, and user-centered design, with a strong ability to bridge design and development for improved usability

TOOLS & SKILLS

- UX Design, User Research, Wireframing, Prototyping, Interaction Design, Usability Testing
- Frontend Development, Responsive Design, Design Systems, API Integration
- AI Tools and Technologies, Prompt Engineering, Figma, GitHub, VS Code, Problem Solving

EXPERIENCE :

➤ **Jr. Software Engineer Intern | A Java Home, Pune | March 2024 – August 2024**

- Collaborated with senior engineers on software development, database design, and API creation.
- Increased backend efficiency by 20% through the development of REST APIs.
- Improved MySQL database schema, reducing data retrieval time by 15%.
- Debugged Java-based applications, cutting bug resolution time by 30%.

➤ **Software Developer | DRDL, Hyderabad, India | Dec 2024 – Current**

Version Control System | Feb 2025 - Aug 2025

- Designed and developed a system to manage, organize, and update version-controlled data, improving data accessibility and workflow efficiency
- Built backend logic using Python with MySQL integration for efficient data storage, retrieval, and automated data management processes
- Optimized system performance on RHEL, improving usability, reliability, and overall data workflow efficiency

Ethernet Based File Sharing System | April 2025 - Oct 2025

- Developed a Python-based application for secure file transfer across local network systems, enabling IP-based remote access with password authentication, efficient document retrieval, and reliable communication to enhance overall user experience.

UI Enhancement and Bug Fixing | Dec 2024 - Current

- Worked on UI/UX problem solving by identifying usability issues and performance bottlenecks, improving overall user experience and system stability.
- Refined UI components and interaction flows using user-centered design principles to deliver more intuitive and consistent software interfaces

CERTIFICATIONS

- **Google UX Design** | August 2025
- Udemy Certified in React Fundamentals | June 2024

ACADEMIC DETAILS

- B.E in Computer Science | MSS College of Engineering, Jalna | 2022 || Grade 8.5 CGPA
- XII (HSC) | S.B. Higher Secondary College, Jalna | 2018 || Scored 74.92%
- X (SSC) | S.B. High School, Jalna | 2016 || Scored 89.40%
