

RAHUL NALTE

UI/UX DESIGNER | FRONTEND DEVELOPER

Pune, IN | +91 9420570716 | rahulnalte26@gmail.com | [in/rahulnalte25](#) | [www.rahulnalteuiux.com](#)

PROFESSIONAL SUMMARY

UI/UX Designer & Frontend Developer with 2+ years of experience designing and developing complex technical and enterprise products in the Defence sector, working alongside scientists and engineers to translate technical requirements into intuitive experiences by bridging design and development.

WORK EXPERIENCE

UI/UX Designer–Frontend Developer | DRDL, Hyderabad | Dec 2024 – Present

- Led UX for mission-critical enterprise and defence applications, creating intuitive desktop experiences.
- Designed Figma component libraries and design systems, improving UI and enabling developer handoff.
- Collaborated with developers to balance user needs with technical constraints.
- Designed communication, file transfer, version management, audit trails, documentation, and operational workflows across Windows/RHEL environments.

UI/UX Designer Intern | Magnarus Technologies | Jun 2024 – Nov 2024

- Simplified multi-step workflows by restructuring user flows, reducing screens, & clarifying navigation.
- Resolved information-dense dashboards by data hierarchy, grouping, & clearer table, filter, search.
- Documented responsive behavior, component states, spacing, and interaction specifications to reduce design–development ambiguity.

UI/UX DESIGN PROJECTS

SecureLink — Enterprise Communication & File Exchange Platform

- Redesigned offline workflows for device discovery, messaging, file exchange, connection monitoring, activity logs, access, and notifications.
- Applied progressive disclosure, visibility of system status, recognition over recall, and error recovery.
- Created end-to-end IA, user flows, wireframes, high-fidelity UI, prototypes, and components.
- Improved transfer visibility with explicit source/destination context, connection states, progress feedback, and recovery guidance.

VCM's — Enterprise Engineering Platform

- Redesigned a legacy folder-based version-management workflow into structured information architecture for versions, projects, documentation, approvals, and activity.
- Designed context-first repository, version detail, upload/update, documentation, audit trail.
- Applied role-based workflows, traceability, filtering, search, metadata hierarchy, validation, and structured review states.

EthConnect — Cross-Platform File Transfer Tool

- Ethernet communication for technical and non-technical around a clear Detect → Select → Transfer.
- Designed connection cards, device selection, transfer progress, error recovery, and feedback.
- Used progressive disclosure and system feedback while considering diagnostics, edge cases, dependencies, and operational requirements.

CORE SKILLS

UX Design: User Research, Personas, Journey Mapping, Information Architecture, User Flows, Wireframing, Prototyping, Usability Testing, Interaction Design, Design Systems, Accessibility (WCAG)

UI Design: Typography, Color Theory, Layout & Grid, Web & Mobile UI, Micro-interactions

Tools: Figma, FigJam, Adobe Photoshop, Adobe Illustrator, Notion, Jira, Miro

Development: HTML5, CSS3, JavaScript, React, Git, GitHub, VS Code, Developer Handoff

CERTIFICATION

NN/g UX Certification | August 2025

Google UX Design Professional Certificate | June 2025

IxDF Interaction Design Foundation | May 2024

EDUCATION

B.E. – Computer Science & Engineering | Dr. BAMU University, Maharashtra | 2022 | 8.5/10

HSC | S.B. Higher Secondary College, Jalna, Maharashtra | 2022 | 74.92%

SSC | S.B. High School, Jalna, Maharashtra | 2020 | 89.40%
